Dual Diagnosis: Handling Challenging Care Situations in Respite and Foster Care

Presenter:

- Dr. Shelia Mansell, Ph.D., R. Psych, Clinical Consultant to Arnika Centre for Dual Diagnosis in Calgary, Alberta
Featured Discussion:

A number of people with an intellectual disability also have a mental health issue which is referred to as a dual diagnosis. Dr. Sheila Mansell, an expert in dual diagnosis, will provide an overview of the following:

- What is dual diagnosis and how you can better equip yourself to provide better care especially in challenging situations.

- How to better understand a person's individual patterns for communication, coping abilities, and the visual/physical manifestations of differing emotional states.

- How to increase your awareness of a person's emotional needs so you can further appreciate in terms of coping abilities exactly how

much is too much.

- The importance of identifying areas where a person has difficulty coping but also equally important areas where a person exhibits strengths, copes very well, self-soothes, flourishes.

- Learn to identify helpful and unhelpful ways to support a person to address aggressive and irritable behaviour.
